

Solasta
— SPA —

*In pursuit of the ephemeral,
the stillness of being*

Time is a travelling companion. It hastens with us, and slows when we let it.
Each moment is subtly transformative, creating memories and adding to our personal blueprint.

Solasta Spa is dedicated to these moments – to stillness, the release of tension, the childlike liberation of unfettered movement. A moment to catch your breath; another to expel it. To defiantly dispel fatigue, or wholeheartedly embrace it. To revel in the freedom of a quiet mind.

Spa treatments are like alchemy for the soul – transforming earthbound elements into sublime experiences. Sourced from around the world, presented with conviction by our spa professionals and yogis.

Meet with our intuitive spa team to customise an immersive, personal collection of therapies that addresses you and the world within you, as you lose yourself in the majesty of the Maldives. Bathe in the horizon; breathe in the sea breeze; bask in the stillness.

*Come as you are,
when you please*

Our journeys are designed for excellent results.

You may also prefer an individually created, immersive spa experience. Ask us about penetrating transformative massages, deeply restoring face care, steam or fragrance baths, skin buffing, toe polishing, foot henna or any other treatment that interests you. Give us an approximate time of day, and our team will design your personal spa journey with any of the à la carte spa therapies – in any order and intensity you require.

Please note that we consider sun exposure with all our journeys and will adjust accordingly, replacing skin stimulants with cooling washes and gentle balms as necessary.

Solasta Spa Journeys

Elan: Spa Morning Dawn of Senses

A stimulating ritual that awakens the body and soul. Begin in an immersive steam bath with infusions of light mint. Followed by an exfoliation with the fragrance of broom flower and honey - inspired by the summer fields. Enhance your indulgence with a full Maison Caulières Signature massage - for a deeper sensation of being yourself - using a fresh and light textured detox vitamin oil that leaves a fresh mint and freshly cut grass scent. Your Song: Afternoon Spa Laze

Gold Body Polish - Therapeutic Bath - Omorovicza Quartz Massage - Gold Hydra Lifting Facial

Your laze begins with an invigorating Golden Sugar scrub, to improve circulation. Then soak in a therapeutic bath, with Tourbillon vegetal scented oil - offering a moment of true well-being. Omorovicza Quartz massage, with an oil redolent of ylang-ylang, enriched with gold particles, leaves the body softened, hydrated and radiant. Complete your afternoon laze with our Gold Hydra lifting facial, a rose-scented gold mask that deploys hyaluronic acid in three different forms. It plumps, nourishes and soothes the skin, while the bio-available gold repairs micro-damage and strengthens the skin.

Quiet Calm: Evening Sun Gaze

Seasonal Body Exfoliation - Gentle Hydrating Wrap - Crown - Intuitive Massage - Queen Facial

This playful, caring ritual is inspired by summer fields and seasonal cycles of warmth. Indulge in a fig, bergamot, rose soft scrub, and a gentle nutrient-rich body-wrap, packed with essential minerals. Pamper yourself with a pre-shampoo scalp treatment - a revitalising scalp mask that harnesses the power of transformative Hungarian Moor mud - rich in calcium and magnesium, to draw out impurities. Intuitive massage intertwined with broom flowers and honey-scented dry oils soften the mood. A Queen facial indulgence reminiscent of a kiss by the sun.

The Stress Melter

Personal Meditation - Yoga - Customised Massage

Finding the path to meditation is not always easy. A one-to-one (or two) yoga and meditation class help you practice in unison, with personal attention given to the best techniques. Identify practices that work for you. In combination with a well-paced massage and olfactory infusions to nudge you along, this journey is designed to be transformative in the moment and instructive for subsequent personal practice. Embark in the spa or at your house or residence. The choice is yours.

The Immunity Boost

Steam Bath - Body Buffing Balm - Cleansing Mud Mask - Head and Scalp Treatment - Omorovicza Massage - Moor Mud Facial

Aromatherapy steam relieves congestion and loosens stiff joints and muscles. A mud buffing balm exfoliates and improves blood circulation. The Mud cleansing mask with rich mineral content is known for its ability to regenerate skin. Whilst cocooning in the Hungarian Moor cleansing mask, your head and scalp are doted on with a pre-shampoo treatment. A revitalising scalp mask relieves scalp stress and nurtures the hair. Pampered with Hungarian massage, the facial is holistically performed to suit your need and stimulate facial muscle bounce, releasing long-held toxins and revitalising the face.

Free Spirited Spa Journey

Maison Caulières Sugar Scrub - Nourishing Toning Body Wrap - Maison Caulières Signature Massage.

As the sun begins to set on warm sands, under a bohemian-chic canopy of a secluded sandbank - the treatment starts with an immersive exfoliating beach sand massage. Maison Caulières' sugar gourmet body scrub of broom flower, honey, and sugar revives, smoothens and moisturises the skin. An ultra-hydrating body wrap of the freshest ingredients tones the skin. Once rinsed off with refreshing Oshibori-scented towels, Maison Caulières's subtly scented moisturising body mist, Envolée Légère, prepares the skin for our pièce de resistance: a full body treatment that fuses Maison Caulières's signature massage with local muscle-relieving concoctions.

Massage Menu

A massage at the hands of an experienced, intuitive therapist is a time-honoured journey of enchantment. At Solasta Spa, this journey is abetted by Omorovicza Hungarian healing techniques and ingredients, coupled with the elemental infusions of Maison Caulières.

The Maison Caulières

Clarity: it so often eludes us. But there are ways to summon and strengthen it. In this classical European massage, inspired by Deep Tissue massage, firm pressure and gentle stretching techniques are applied. Relieves muscle tension, enhances circulation and stimulates the metabolism for detoxification. Infused oils with their sweet floral aroma uplift the spirit, nourish the senses and restore energy to the entire body.

The Omorovicza

Omorovicza has harnessed the healing power of Hungary's mineral-rich waters and infused it into an exclusive range of healing oils. Involves a unique combination of relaxing Hungarian Deep Tissue body massage techniques to reduce stress and ease muscle tension. Stimulates muscles and improves circulation, flexibility, firmness and skin tone.

Traditional Thai Massage

An ancient path to healing - a traditional Thai message guides your body through a series of yoga-like stretches and pressure-point therapy. Safe in the care of an expert practitioner, you'll experience a restored sense of balance as ligaments are drawn and joints aligned. Refreshed and reinvigorated, brimming with natural energy. Thai massage clothing is provided.

Reflexology

Classical foot therapy heals the body by stimulating reflex points in the feet. Essential for those struggling to relax, especially when combined with one of our massage treatments. Ideal for anyone who'd prefer not to disrobe. Repeated over several days, the results can be profound.

Spinal Connection: Volcanic Stone Healing

The weight of responsibility builds over time. Pressure mounts, and bears down upon us. Settling into our bones. Cast off that burden. This treatment harnesses the elemental energies of hot volcanic stone – a restorative natural pain reliever, that gives inner balance. Flowing massage enhances circulation and lymph flow for greater benefit.

Warm Poultices

Feel unburdened through better lymph and blood circulation. Soothing stiff joints, improving flexibility and firming up skin in the process. Inspired by Ayurvedic healing traditions, a treatment of warming poultices filled with minerals, healing herbs and essential oils of lavender, chamomile and marigold are worked into the body along energetic pathways. Rhythmic massage strokes soothe muscles and soften old wounds.

Mum-to-be*

A specialised massage therapy adapted to feed the skin and senses of the expectant mother and her baby. Touch is essential to a baby's development, well-being, emotional balance, and healing. Virgin coconut oil nourishes and reinforces the skin, protecting against stretch marks. This rejuvenating treatment nourishes the soul, realising a profound sense of inner peace.

* Available after the first trimester

Moksha Nautilus Signature – By Ananda in the Himalayas

A holistic therapy inspired by the concept of Moksha - signifying a liberation of the senses and a release of the free flow of Prana or energy. Working on different levels of the human body and consciousness to create a sense of overall physical, mental, and emotional well-being. Traditional Ayurvedic therapeutic techniques, and a Marma point release technique, increase energy and heighten the sense of vitality. Ananda Spice oil, Cardamom, Ginger, and Black Pepper stimulate and boost the immune system.

Abhyanga

An ayurvedic full-body massage is done with long strokes to strengthen the muscles, improve circulation, prevent ageing and induce sound sleep. Helps to lubricate the joints, tone the muscles, and promote physical and emotional well-being.

Nasal Detox*

A healthy self-care practice inspired by the traditional Ayurvedic Nasya. The nasal detox begins with steam to soothe and open nasal passages. Anu Tailam, enriched with Kapha balancing ingredients, helps to clear and cleanse accumulated mucus from the sinuses, relieves sinus congestion, releases tension in the head, and enables you to breathe better.

**Avoid sunbathe at least 2 hours after this treatment.*

Champissage

Also known as Indian Head massage, carried out in your comfort. Work on the shoulder, upper arm, neck, scalp and marma points on the head. The warm infused oil on the scalp, and marma points on the face and head. A vigorous manipulation of the scalp encourages the circulation of cerebral fluid, relieving fatigue, insomnia, headaches, and sinusitis.

Omorovicza Face Therapies

Mineral-rich soil from Lake Heviz in Hungary. Earthen hues – shimmering and black. The restorative properties of these natural resources are redundant until they penetrate the skin and enhance its function. Our facial treatments harness the expertise of Omorovicza, with their patented healing concentrate and bio-available formulas. These strengthen the skin, restore balance and enhance cellular activity.

Moor Mud

Deep-pore cleanse refining and balance

This signature facial uses mineral-rich Hungarian Moor mud, detoxifying and drawing out impurities for deep cleansing. The application of the fragrant Moor mud mask followed by a thorough cleansing and mild exfoliation. The iconic Moor mud cleansing balm, as well as tropical fruit extracts, help to treat sensitive skin and reduce pore size. A classic Hungarian facial massage instantly lifts and firms the skin.

Heart of Gold

Repair, plump and hydrate

A rose-scented gold mask infused with three forms of hyaluronic acid to plump and nourish the skin. Bio-available gold, delivered with a flutter of rose quartz wands, repairs micro-damage and strengthens the skin with a lifting and firming traditional Hungarian face massage. A sprinkling of gold shimmer oil adds a subtle sparkle to arms and décolleté.

Bright Blue Diamond

Brighten, firm and strengthen

Diamond peptides prolong the life of healthy skin, repairing skin cells. The result is greater elasticity, stronger skin and overall youthful exuberance. A traditional Hungarian facial mask accelerates oxygen infusion for lift and vitality. Cooling eye globes refresh the eyes, while a scalp massage draws oxygen into hair follicles. The result is a more vibrant, lustrous complexion.

Come create an alternate space where you can escape the pressures of daily life.

Yoga comes in myriad styles and practices, honed and refined over millennia. This traditional practice represents a living, breathing journey to wellness, undertaken by countless generations that have gone before. Modern interpretations build upon this traditional foundation.

But yoga is ever and always a personal experience. It transforms us – even as we shape and experiment with its execution.

At Solasta Spa, we offer the opportunity to practice yoga in any way you please: classical Hatha postures and breathing; Ashtang Primary series; flowing Vinyasa; slow, extended holds for joint mobility strength of Yin; or Aerial yoga poses at another angle. The parameters are as varied and profound as your practice.

Sound Bath, Meditation with *The crystal singing bowls and the ancient *Tibetan bowls, which are played using suede or a wooden wand that is rubbed gently around the outside edge for friction, creates beautiful harmonic tones reminiscent of angelic choir overtones. It stays in the air for what seems like forever. The bowls create a feeling of peace in a loving and compassionate way, bringing us back into perfect balance and harmony.

*Contraindication: Mom-to-be, any plates or implants in the body (metal plates), epilepsy.

Our yogis offer expertise, inspiration and encouragement as they escort you along a path of personal expression with yogic practice and meditation. If you have any questions at all, you can enquire with Solasta Spa before your visit.

We host Freedom Yoga each morning. Salute the sun at dawn as it rises across the horizon. Of course, the timing of these sessions changes with the seasons. Ask your House Master for the current sunrise schedule. Your House Master or the Solasta Spa team will also be delighted to arrange personal yoga and meditation in the comfort of your home; or anytime, anywhere.

Spa Etiquette

At Solasta Spa, we offer spa treatments any time of day or night with advance booking, though our regular opening hours are from 8am to 7pm daily.

Feel free to come as you are; our private spa pavilions provide bathrobes, slippers, and everything else you may need. To enhance your experience, we encourage a "disconnect to reconnect" philosophy—embracing the sweetness of being alive by unplugging from technology. Please note, Solasta Spa is a mobile and smoking-free zone.

Each pavilion includes a private changing room, washroom, and shower for your convenience. You can also book the steam room and outdoor bathing area of your pavilion for an additional charge.

For yoga practice, comfortable, unrestricted clothing is recommended. If you're unsure what to wear, your House Master will gladly assist you.

If you need to change your plans, please provide at least 4 hours' notice to avoid a 100% cancellation fee. Contact your House Master to schedule or rebook treatments; our Solasta Spa team is also available to help create bespoke packages for your stay.

Your House Master will coordinate your arrival at the spa, informing you in advance when to be ready for collection. We advise arriving ahead of your scheduled time; while we'll do our best to accommodate late arrivals, we may not be able to honour the full duration of your treatment out of respect for subsequent guests.

For men, we recommend shaving before a facial, while body shaving is not recommended before body treatments like wraps, scrubs, and waxing.

Please leave all valuables in your house safe when visiting the spa.

Guests must be at least 16 years old to enjoy the spa. Those aged 6 to 15 may enjoy treatments with a parent or guardian (over 18) present in the room. The Young Wonderers Spa is designed for children up to 10 years old.

Many of our treatments can be enjoyed in the comfort of your own house or residence for an additional fee of \$100 per person, regardless of the treatment duration.

To tailor your experience, we ask you to share some information about yourself in a brief pre-consultation.
