MALDIVES MAAMUTAA

THE BEST OF THE MALDIVES IN 19 HECTARES OF NATURAL WONDERS

Located in the pristine Gaafu Alifu Atoll south of Male, Maamutaa is a pristine island with unique vegetation and protected wildlife. Packed into 19 hectares are five biomes, each with its own rich ecosystem. From the natural fresh water lake at the center of the island, to the diverse marine life of the house reef, the island is a microcosm of the natural wonders of the Maldives.

After a 55 minute flight from Male's Valena International Airport to Koodoo Domestic Airport, the journey to Pullman ends in an exhilarating 15 minute speedboat ride.

A woman in a mermaid costume is swimming in clear, vibrant blue water. She is wearing a white bikini top and a long, shimmering purple and blue mermaid tail. The water is crystal clear, showing ripples and reflections. The overall scene is serene and evokes a sense of being underwater.
