

An aerial photograph of a tropical island in the Maldives. The island is surrounded by deep blue water, with a shallow lagoon area in the center where the resort is located. The resort consists of numerous overwater bungalows with brown roofs, connected by a wooden walkway. A small white building, likely a restaurant or reception area, is also visible. In the background, another smaller island with a few buildings and a pier is visible. The water shows varying shades of blue and green, indicating different depths and coral reefs.

Our Story

The Halcyon Private Isles Maldives invites you to rediscover the romance of exploration and a quiet return to a more graceful way of journeying. Inspired by Victorian archaeologist H. C. P. Bell, the isles capture the essence of timeless adventure and the serene beauty of the Maldives.

Set within the untouched Gaafu Alifu Atoll, each private isle is a sanctuary of refined seclusion, where colonial-inspired architecture meets tropical ease. Here, travel unfolds slowly and with intention between sea and sky, past and present; inviting moments of curiosity, connection and calm in a modern revival of classic travel.

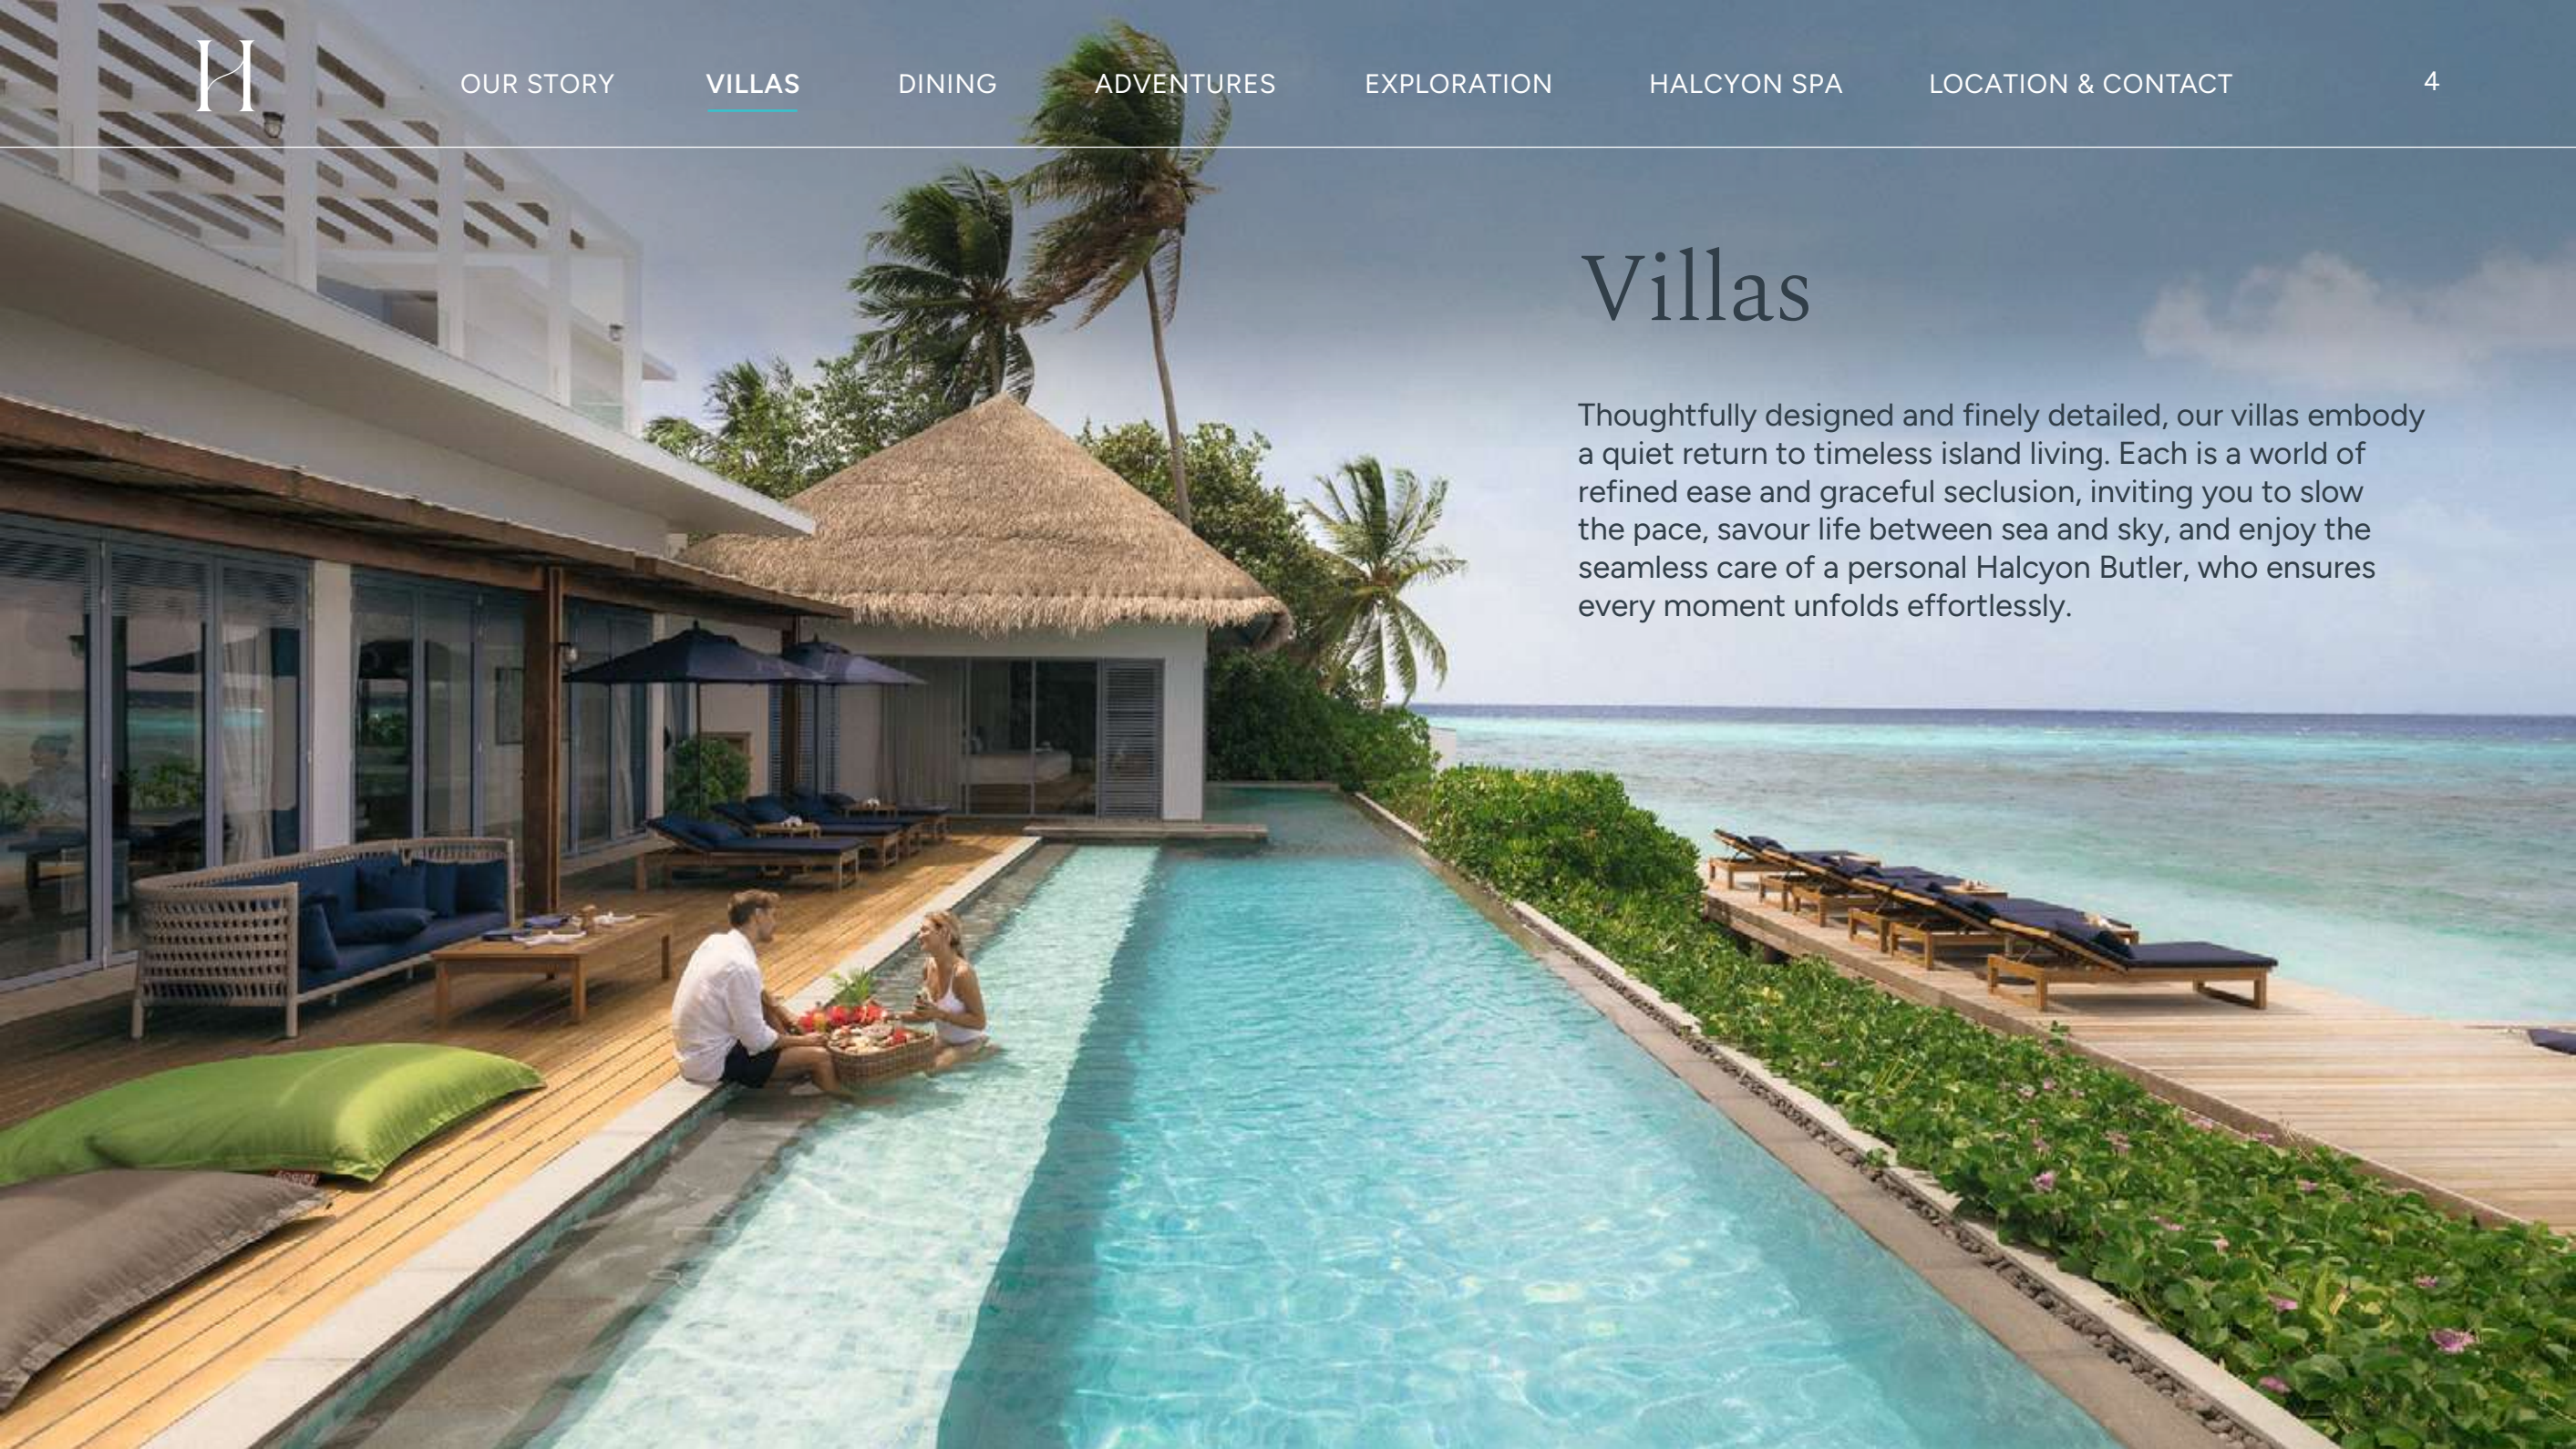

Seaplane Transfer

Begin your holiday with a thrilling seaplane journey, soaring through the skies from Malé to our Gaafu Alifu Atoll. Beneath you there are hundreds of beautiful islands, scattered like emeralds. We can arrange this unforgettable experience that takes you across several atolls, finally to land on liquid silk at The Halcyon.

Thari

Fusion cuisine crafted from the freshest ingredients

Meaning “star” in Dhivehi, Thari shines at the island’s heart as a luminous gathering place where flavour, light and rhythm meet. Steps from the shore, it celebrates island dining with warmth and grace, blending Mediterranean ease and Asian vibrancy in dishes that are vivid, generous, and full of discovery.

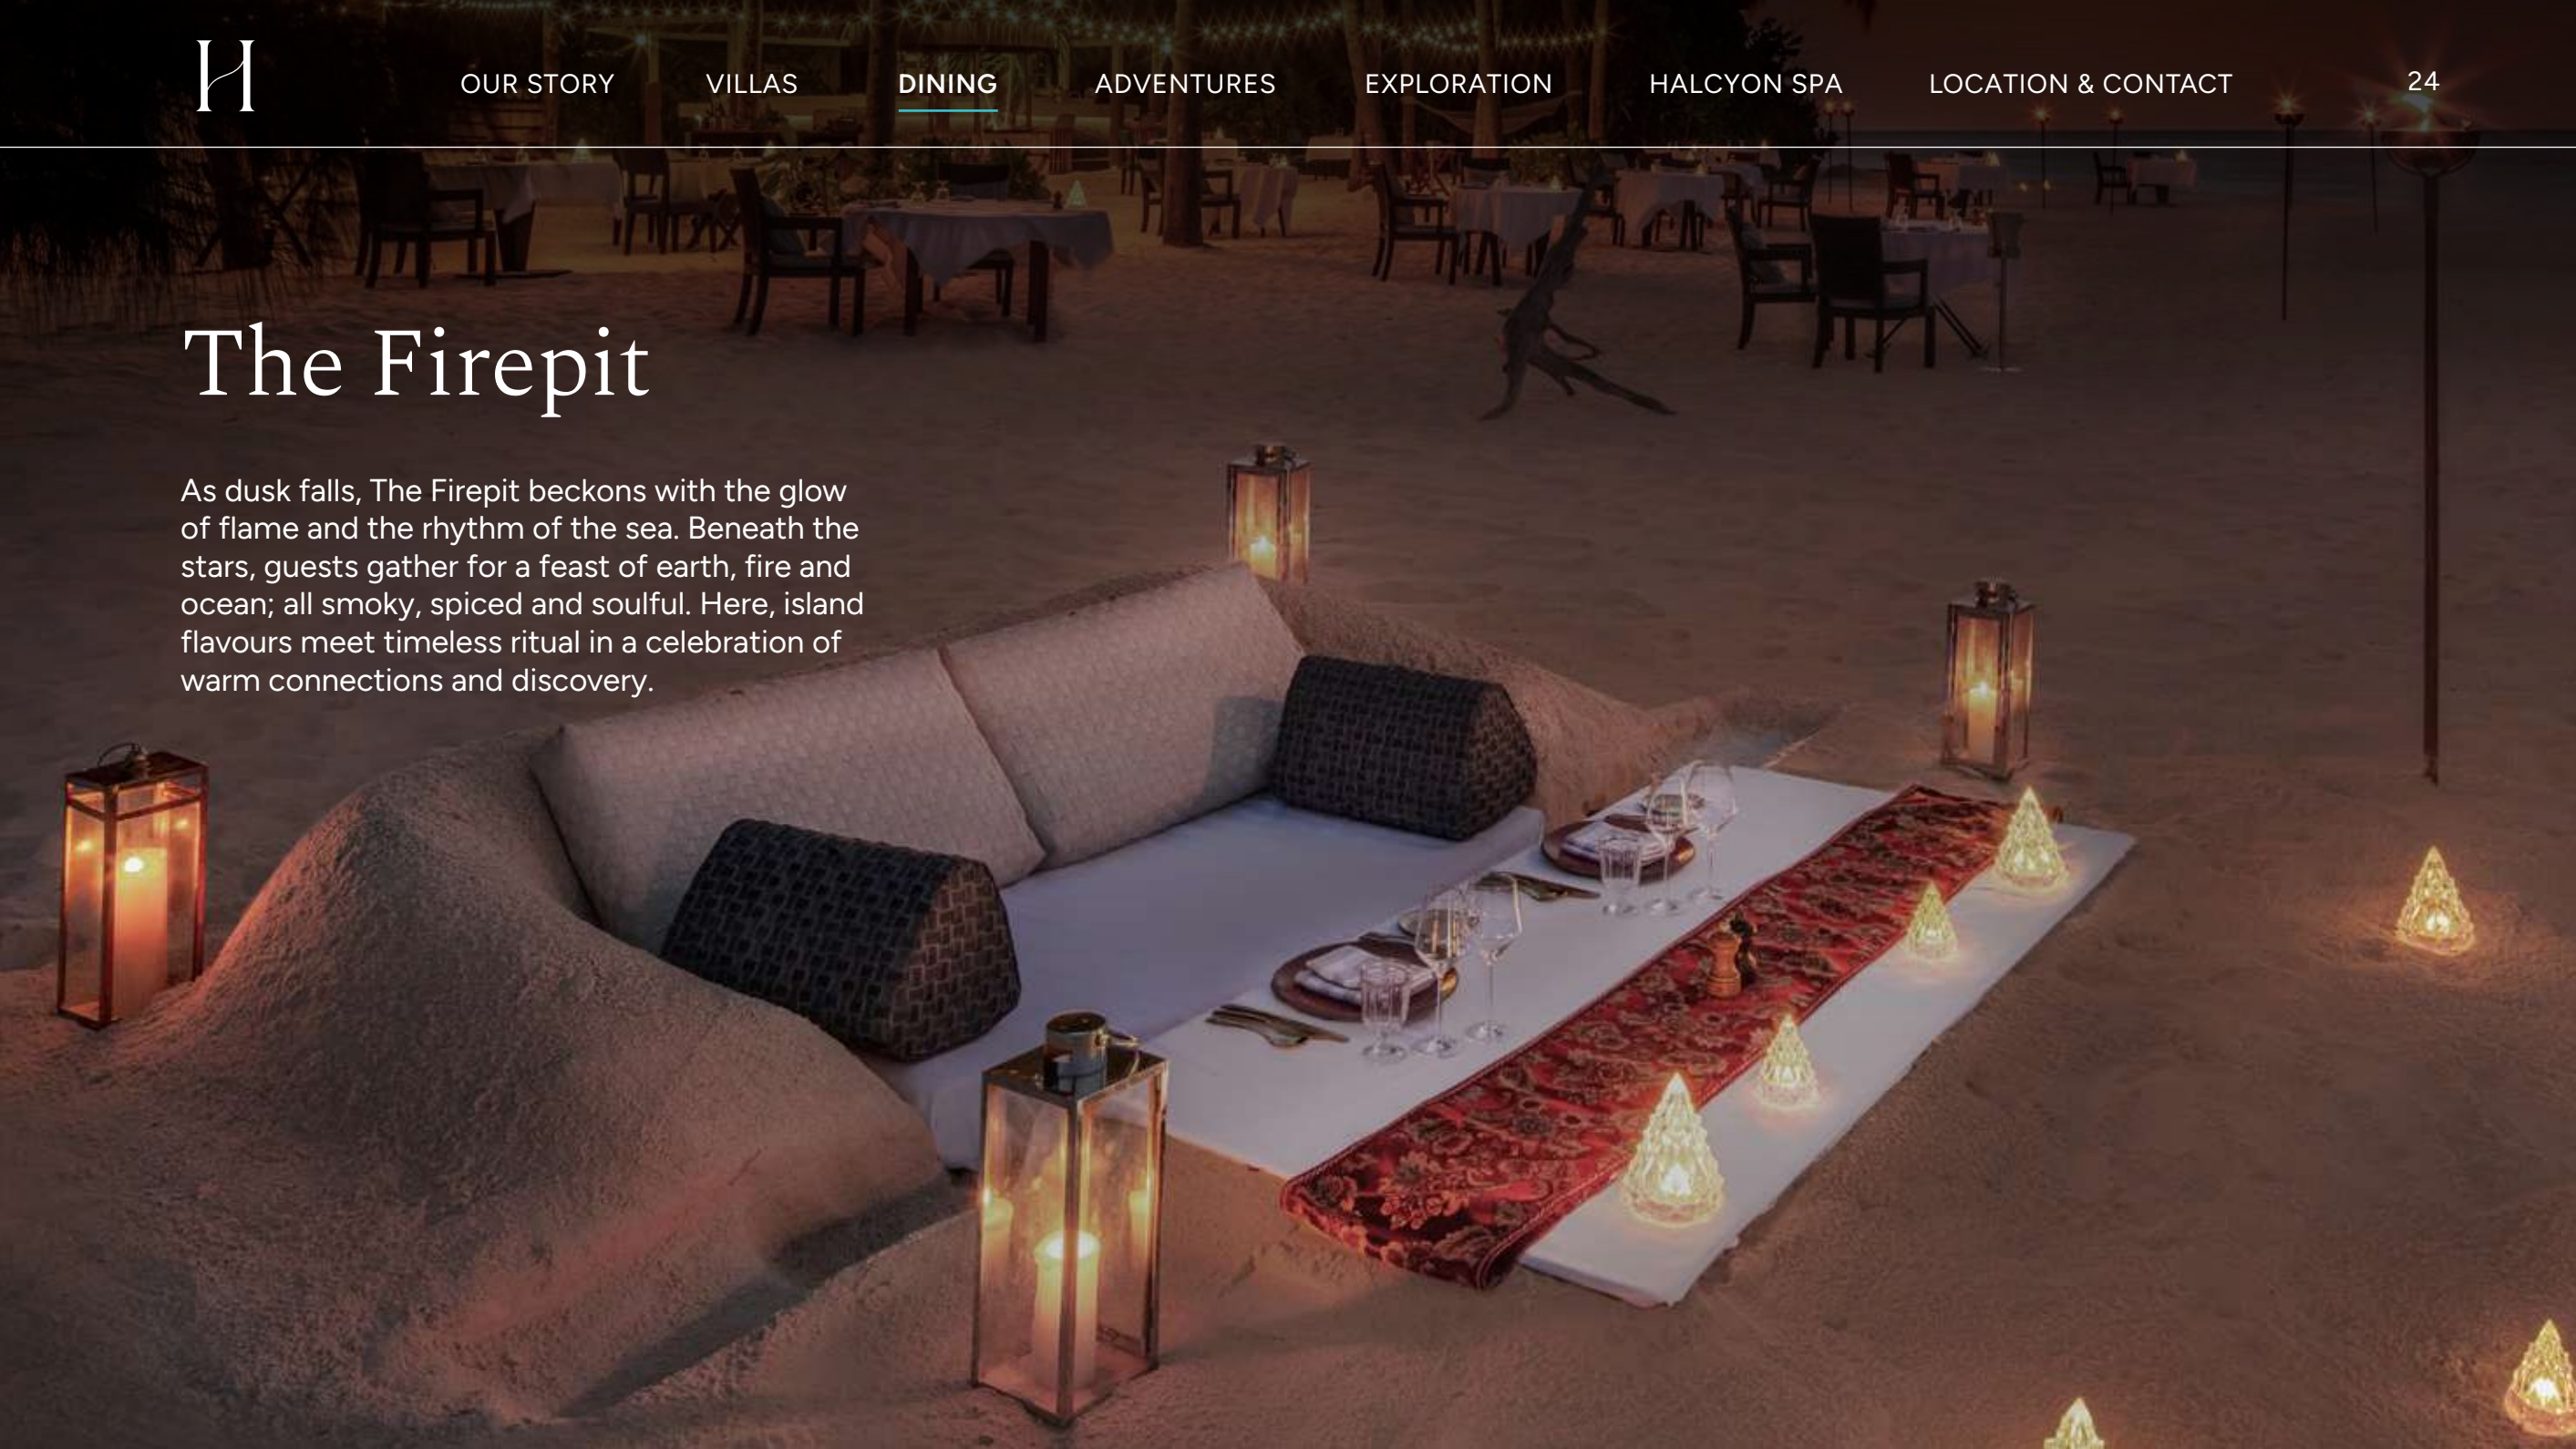

Bell Bar

Named for explorer H. C. P. Bell, this ocean-front bar embodies elegant indulgence with a contemporary island spirit. By candlelight or sea breeze, guests savour rare vintages and crafted cocktails inspired by Bell's journeys. Sophisticated yet effortless, it's a haven where refinement meets the rhythm of the Maldives.

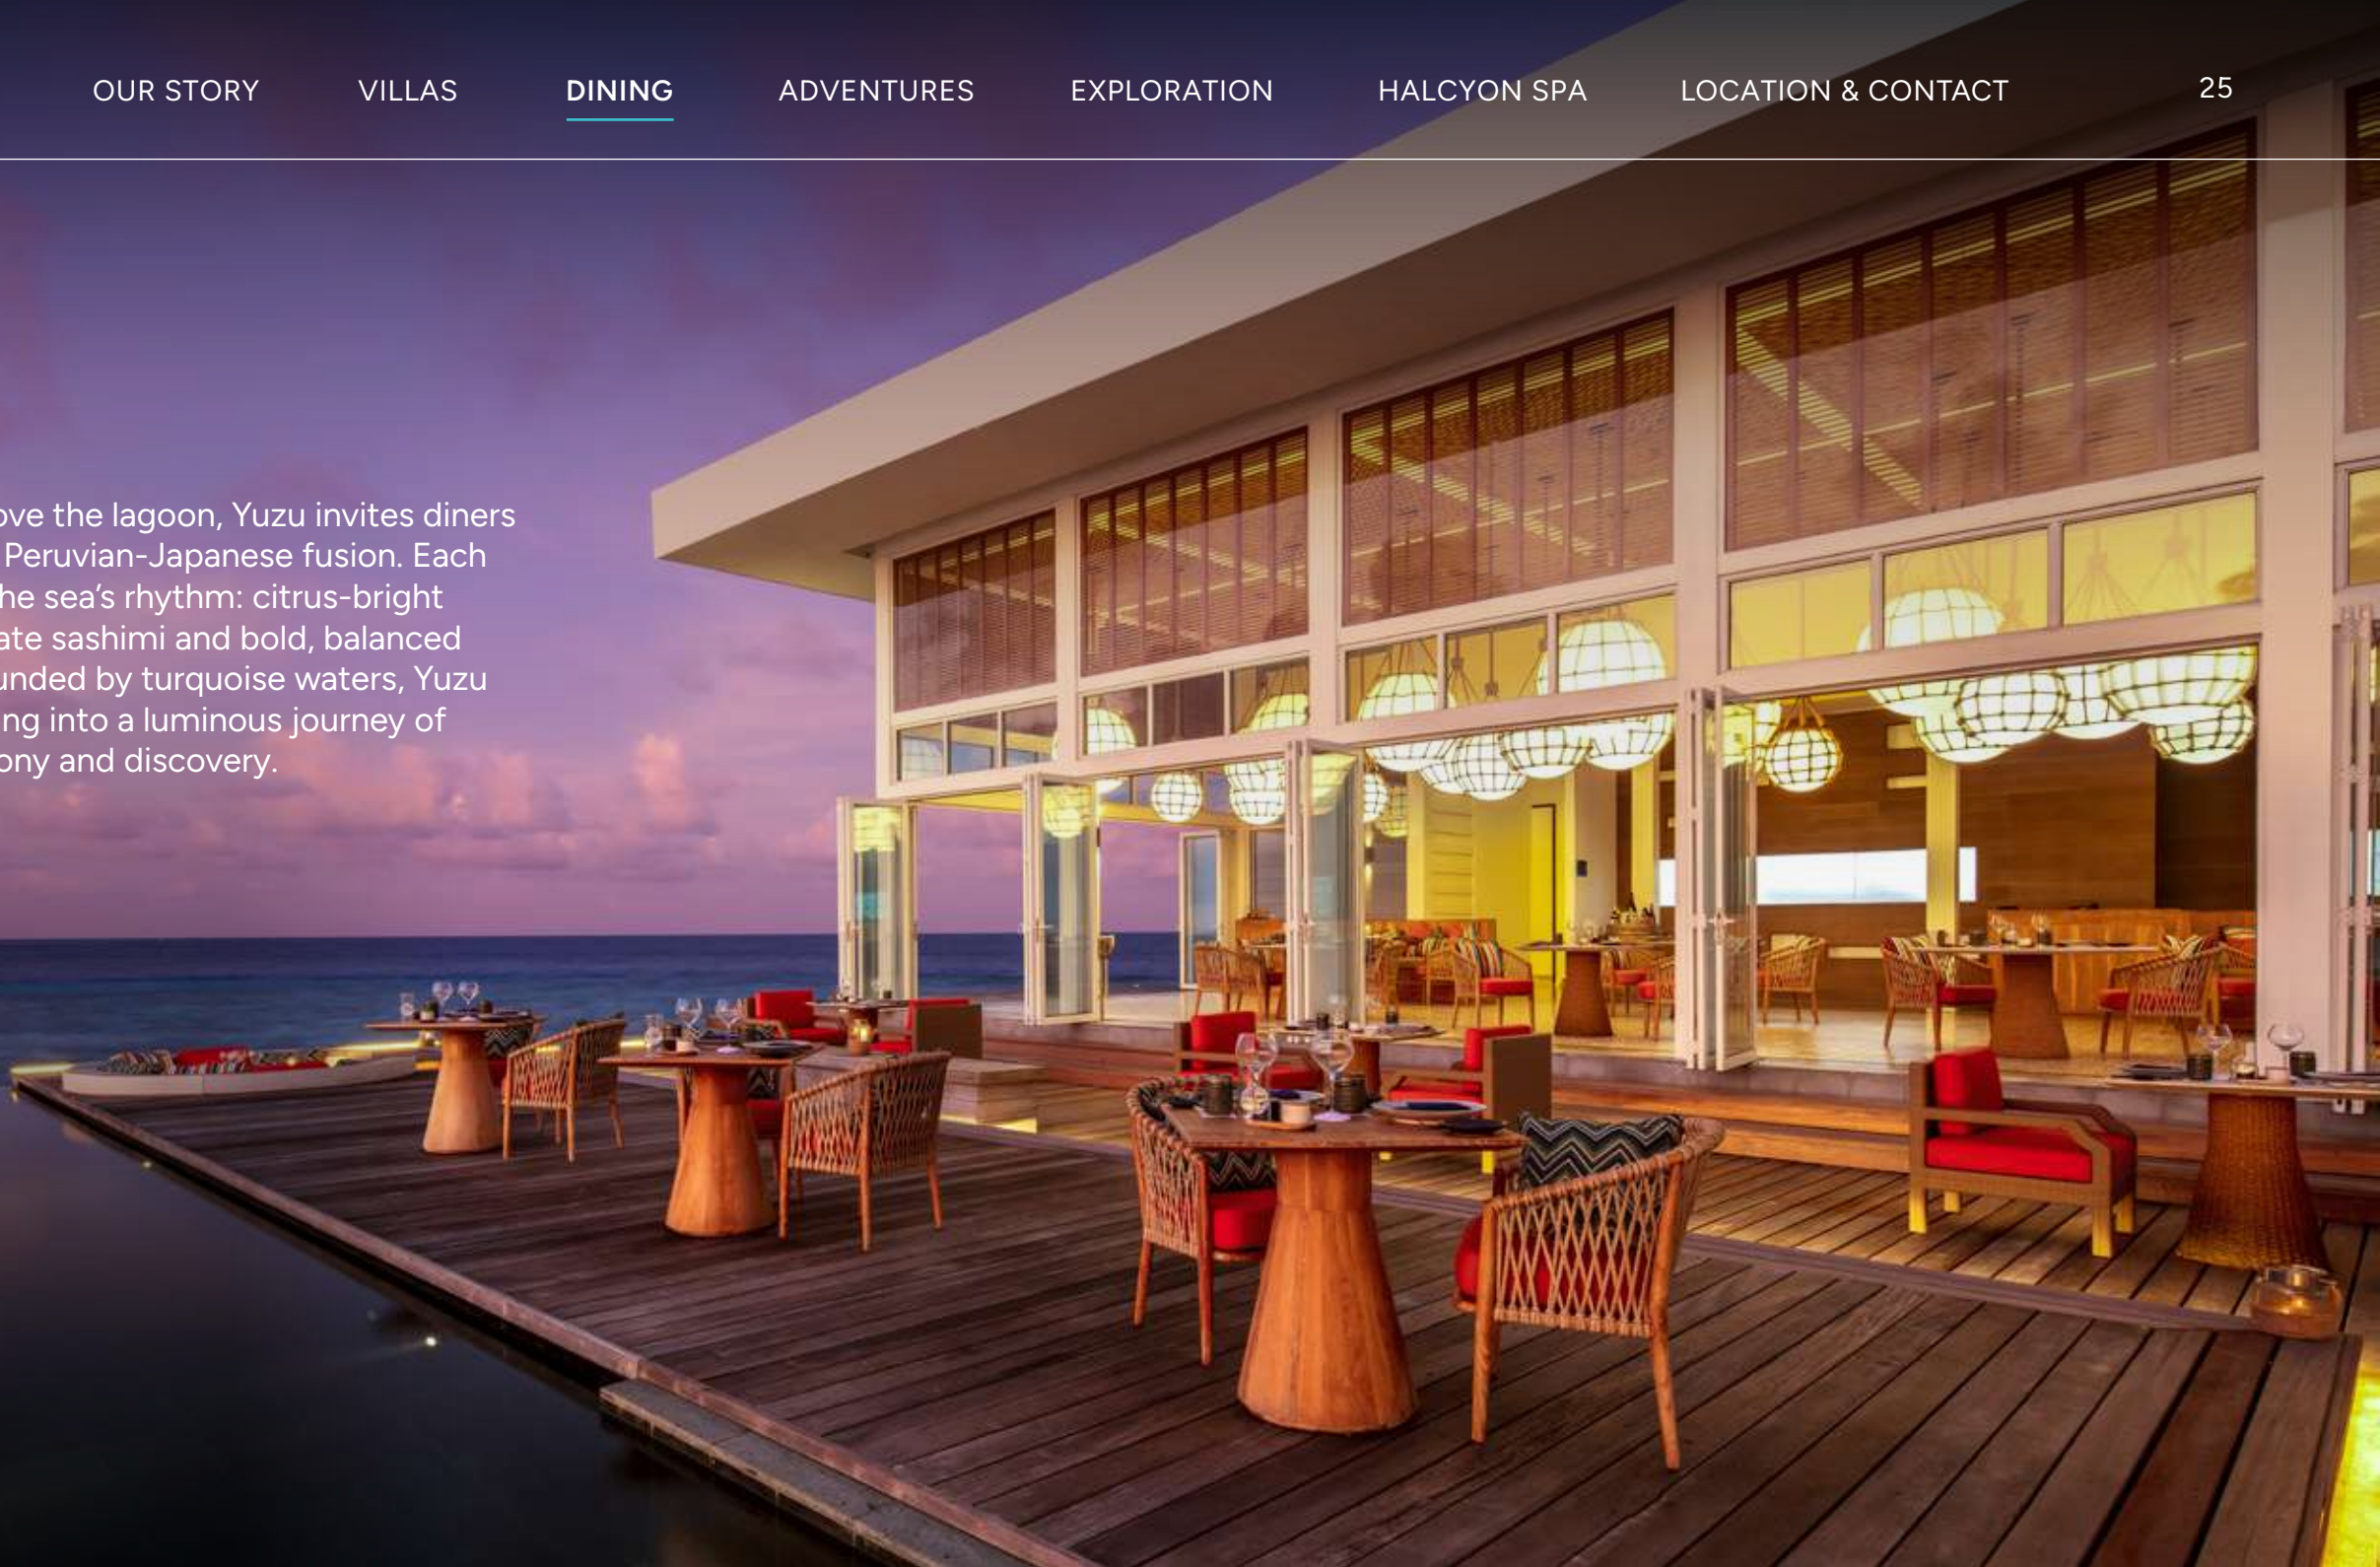

The Firepit

As dusk falls, The Firepit beckons with the glow of flame and the rhythm of the sea. Beneath the stars, guests gather for a feast of earth, fire and ocean; all smoky, spiced and soulful. Here, island flavours meet timeless ritual in a celebration of warm connections and discovery.

Yuzu

Suspended above the lagoon, Yuzu invites diners on a voyage of Peruvian-Japanese fusion. Each dish captures the sea's rhythm: citrus-bright ceviches, delicate sashimi and bold, balanced flavours. Surrounded by turquoise waters, Yuzu transforms dining into a luminous journey of contrast, harmony and discovery.

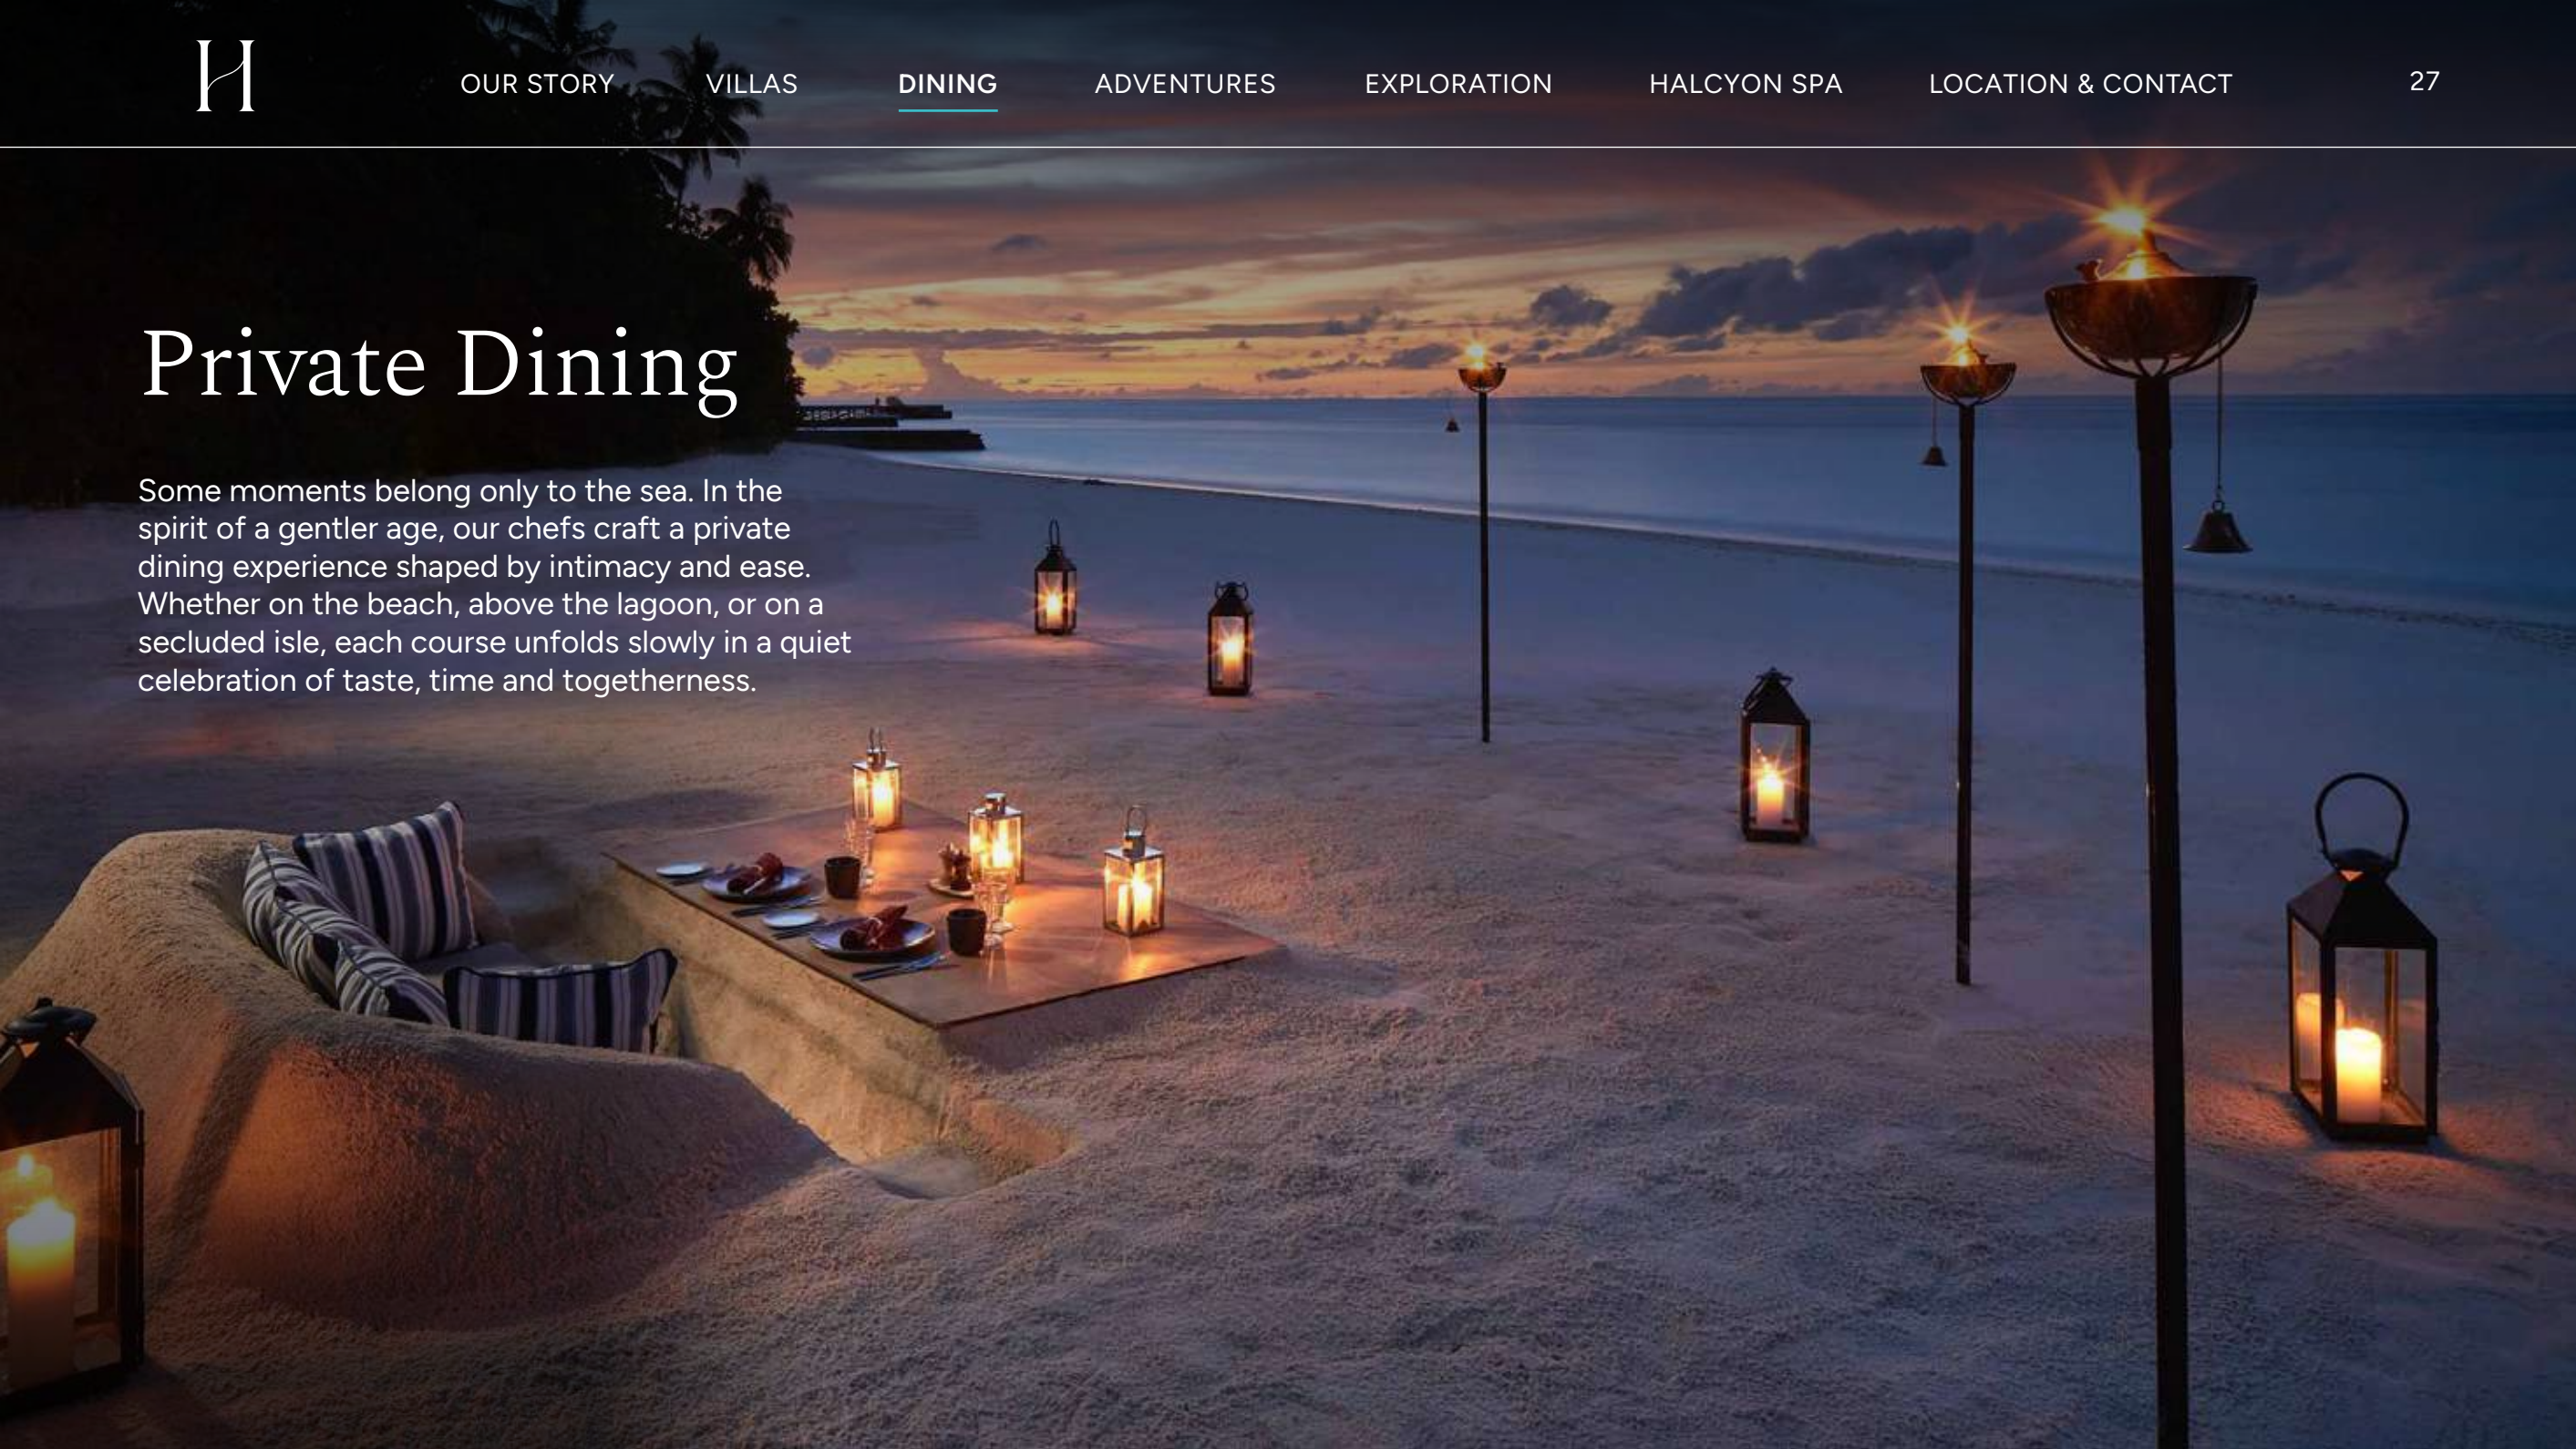

Yapa Sunset Bar

Beside Yuzu, Yapa is where evening drifts into ease. Named for the Peruvian word meaning “a little more,” this overwater bar invites lingering. Savour saké, pisco and mezcal cocktails with artful tapas as the horizon deepens to indigo. This is a place for conversation, connection and unhurried discovery.

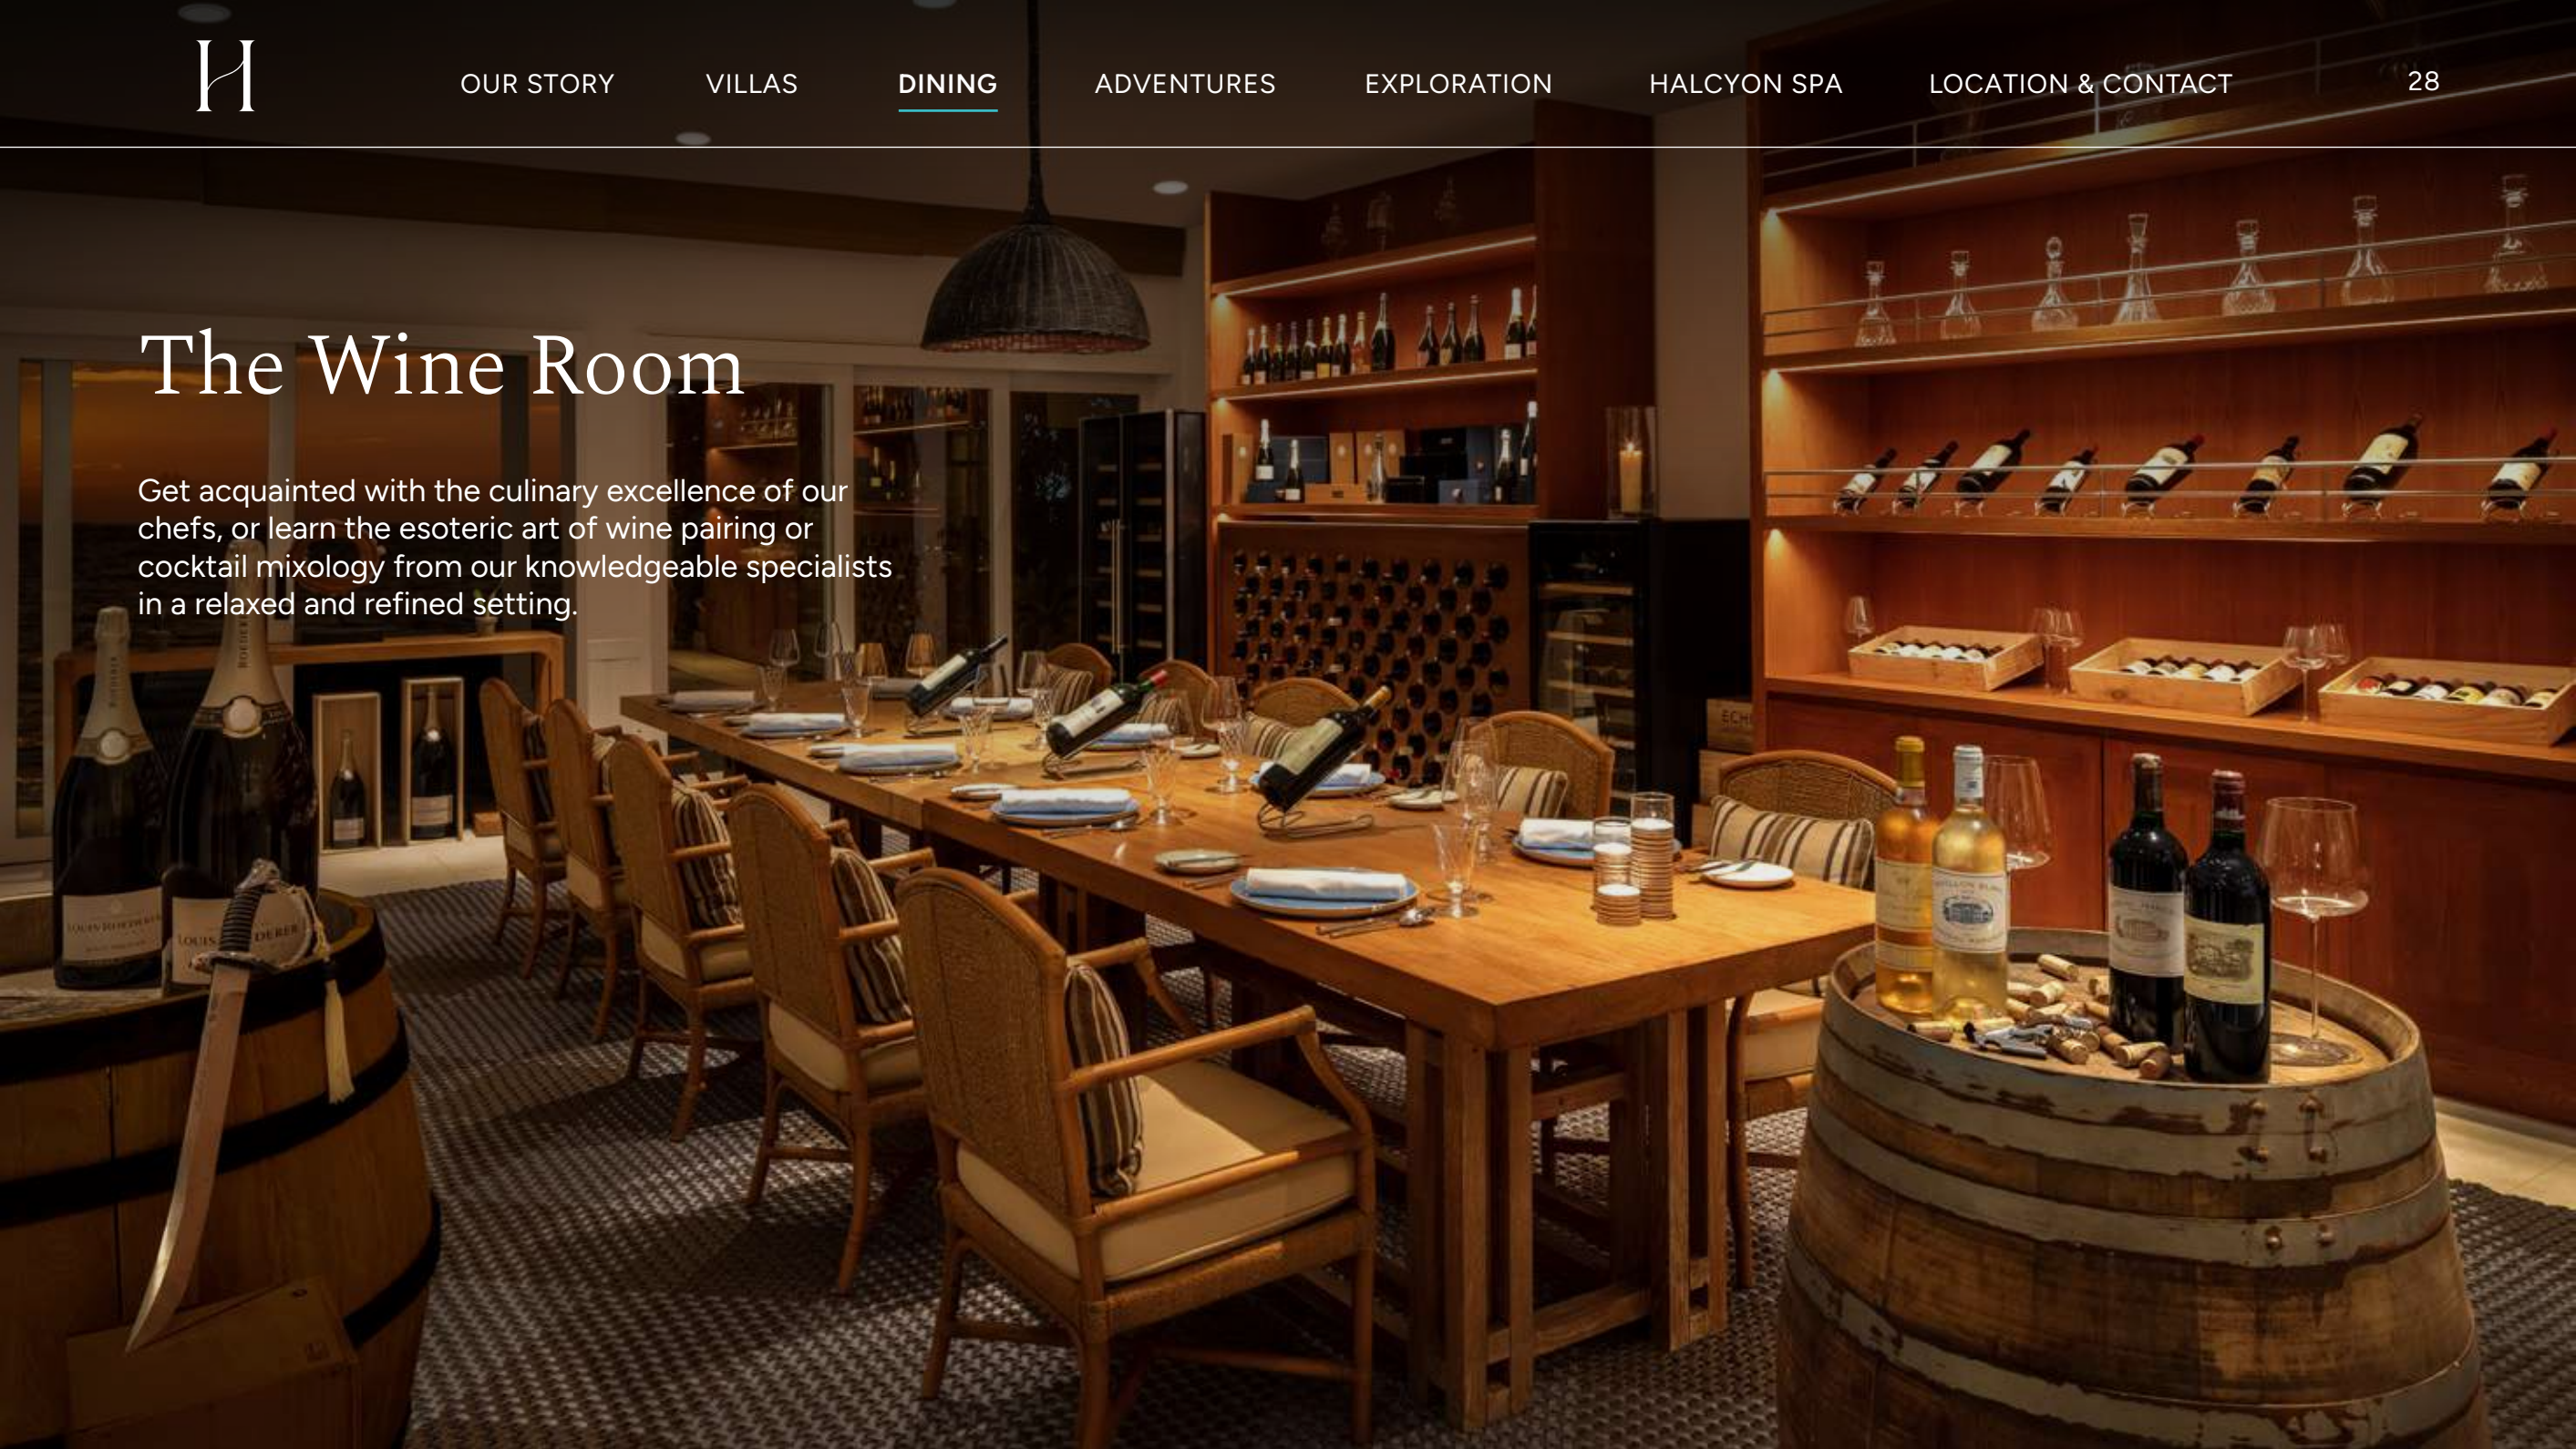

Private Dining

Some moments belong only to the sea. In the spirit of a gentler age, our chefs craft a private dining experience shaped by intimacy and ease. Whether on the beach, above the lagoon, or on a secluded isle, each course unfolds slowly in a quiet celebration of taste, time and togetherness.
