An underwater scene with a deep blue background. Sunlight rays stream down from the top. In the upper left, two jellyfish with glowing blue centers and long tentacles float. In the upper right, a manta ray glides. Numerous small, light blue fish swim throughout the water. At the bottom, there is a dense field of colorful coral in shades of purple, pink, yellow, and orange. A bright, sparkling light source at the bottom center creates a trail of white particles rising upwards.

A close-up, low-angle shot of a DJ performing at a nightclub. The DJ is a man with dark hair, wearing large headphones and a black t-shirt. He has white skull face paint on the right side of his face, covering his eye and cheek. He is looking down at his hands as they move over a DJ mixer. The mixer is illuminated with various colored lights (blue, green, yellow, red). The background is dark, with some blurred lights suggesting a club atmosphere. The overall mood is energetic and mysterious.
