

UNFORGETTABLE AND  
SUSTAINABLE EXPERIENCES

# WELCOME TO ECOBOO MALDIVES

The beautiful tropical islands of the Maldives are like pearls across the Indian Ocean, and Thinadhoo, where Ecoboo is located, is one of them.

Coconut trees, white sandy beaches surrounded by crystalline turquoise water provide the ideal conditions for Ecoboo to offer you a calm, cozy and natural environment, to experience the real Maldives and enjoy an unforgettable vacation.

Our boutique hotel has 43 rooms built with a unique bamboo construction concept reflecting the sustainability principles that guide and inspire us to achieve a neutral carbon footprint.

# Why Thinadhoo?

Ecoboo is located in Thinadhoo, Vaavu atoll, situated south of Male.

It is a very calm local island with more than 50% of the Island covered by its original vegetation, predominantly coconut trees and no motorised vehicles.

About 40 local inhabitants live in the island, the remaining being foreigners working in the tourism field.

Where we can find, outstanding beaches, unforgettable diving, exceptional snorkelling, amazing fishing in a calm and cozy atmosphere.

# ECO CONCEPT

Our concept is eco-friendly aiming to reach neutral impact on carbon footprint.

Bamboo being carbon neutral, plays an important role in the balance of oxygen and carbon dioxide in the atmosphere.

This inspired us to use it for the construction of Ecoboo. We have used more than 45 km of bamboo during construction.
