Addendum Communique - Constance Ephelia Seychelles Renovation Works 2026

Dear Valued Partners,

Following our previous communication regarding the upcoming enhancement program at **Constance Ephelia Seychelles**, we are pleased to share a few important updates with you.

We are delighted to announce that the resort will be increasing the inventory of **Senior Suites**, further expanding our range of premium accommodation options to meet the growing demand from our guests seeking additional space, comfort, and privacy.

Please rest assured that all works related to this project will be carefully planned and executed to minimize any disturbance to our in-house guests, ensuring the existing serene and relaxing atmosphere of the resort throughout the enhancement phase.

Additionally, we are pleased to confirm that Kabana will not be closed during this period. Instead, the venue will be relocated to a new area within the resort, where it will continue to offer its relaxed atmosphere and refreshing selection of food and beverages — an integral part of the Ephelia beach experience.

For your convenience, we have enclosed a resort map (**Annexe 1**) clearly outlining the areas concerned during this phase of the works. These zones will be carefully closed off to ensure minimal disruption and to preserve the quality of our guests' stay.

Our commitment remains to continuously elevate the guest experience while maintaining smooth resort operations. We will keep you regularly informed as the project progresses and look forward to welcoming your guests to enjoy and explore these exciting new improvements in the near future.

We will share further details concerning the renovations in due course.

Thank you for your continued trust and partnership.

With kind regards,

Constance Hospitality Management Limited
