DESIGN

A blend of contemporary design with breathtaking views of mountains and the Andaman Sea.

Following the original Twinpalms concept and design style, Martin Palleros, a leading landscape architect in the Asia-Pacific region, and his team from Tierra Design returned to shape this beachside resort.

Martin used his deep passion for landscaping to skilfully highlight the stunning views of the lush mountains and turquoise sea for guests staying at the resort. He creatively integrated greenery on the rooftops and around the entire resort, plus used natural light to add to the contemporary design that embraces the tropical beauty of Kamala Beach and its surroundings.

Team members who exhibit passion and a desire for growth within our independent company are rewarded with unique progression opportunities. There, they explored different beach clubs, music genres, and culinary presentations, immersing themselves in diverse cultures.

They return home enriched with this invaluable experience, ready to infuse their newfound knowledge into our operations.

We build our team spirit to be 'In Tune, In Touch and Inspired' to deliver the Twinpalms brand standards.

All hotel team members are:

- Trained in a compliance class, including fire safety and related human resources training
- Certified or trained in Food & Beverage handling, procedures, hygiene laws and restrictions concerning food safety
- Trained in the art of problem-solving for potential challenges. This ensures a clear understanding of their empowerment at different levels, enabling them to respond effectively and confidently
- Provided with service training on a continuous basis by designated on-site trainers
- 100% engaged with our hotel green initiatives and able to communicate our ethos with our guests

PLANET

We embrace sustainable practices by reducing plastic waste and conserving energy. This comprehensive policy is aimed at minimising single-use plastic consumption across all of our brands.

As part of our dedication to combatting ocean pollution and protecting our environment, we aim to provide eco-friendly alternatives to plastic straws, packaging for bathroom amenities, water bottles and other items that contribute to plastic waste. Refillable glass water bottles are in place and our locally sourced bath products are presented in ceramic containers, ensuring a luxurious and environmentally conscious experience.

PLACE

Our proximity to the sea is one of our unique selling points and with it comes the responsibility to keep our beaches and ocean as free from plastic and rubbish as possible. We clean our beach daily and encourage our guests to respect the ocean.

We source much of our seafood and vegetables locally, significantly reducing carbon emissions by minimizing the import of perishable goods.
