PURE MASSAGE

BY BEATA ALEKSANDROWICZ

“TECHNIQUES ARE WORDS, THE STRUCTURE ARE SENTENCES AND A WHOLE MASSAGE IS LIKE WRITING A POEM. THIS IS WHY I BELIEVE MASSAGE IS AN ART.”

- Beata Aleksandrowicz

All Huvafen & Pearl Spa therapists have undergone intensive training with Beata Aleksandrowicz, acclaimed massage expert and the creator of the Pure Massage Spa Training Method®, which provides spas worldwide with advanced training in a modern concept of massage.

The author of several books on massage, Beata is published worldwide. A former columnist for The Sunday Telegraph, she is an expert contributor to numerous publications, including Spa Business and European Spa Magazine. Beata also serves on the Mental Wellness Initiative for the Global Wellness Institute and is a judge for the World Spa & Wellness Awards. Beata's method is both thorough and groundbreaking, teaching the most effective, injury-free massage techniques and introducing therapists to essential life coaching elements.

The Pure Massage technique combines elements of deep tissue and trigger points with quantum healing, Thai stretches, energy work and touch therapy. The result of 20 years' experience in the industry as a therapist and teacher, Beata's massage concept has been described as "the best in the world" by the Tatler Spa Guide. Pearl Spa is proud to have invested in this valuable ongoing training and revision programme to ensure that all our guests receive a really exceptional massage.

BACK PURE MASSAGE

45/60 minutes

Beata developed the 'trunk and branch' method, where our priority is to understand and address the tension in the back and how it radiates out to the rest of the body. By focusing on the back we get to the core of the matter, which is the best way to ensure relief. Sometimes it is better to concentrate on the back, rather than give a full-body massage that does not properly address the build-up of tension in your shoulders, neck or lower back. This is an essential treatment to keep your whole body relaxed, fit and strong.

JET LAG PURE MASSAGE

60/90 minutes

This energising and restorative treatment will help you recover quickly from long journeys. A deep stimulation of the scalp, combined with gentle body stretches and a back massage, is applied to ease post-travel sluggishness, stiffness of the joints and tension in the muscles. It relaxes and refreshes at the same time, improving lymph and blood flow, and preventing headaches, insomnia and dehydration so often associated with travelling through different time zones.

REVITALISING FACE PURE MASSAGE

60/75 minutes

Beata believes that the face needs massage as much as the body. This treatment, described in the press as "better than botox", uses the healing power of touch and invigorating strokes to release the stress held in your face. It immediately improves appearance, removes puffiness and delivers fantastic glow and radiance. This natural anti-ageing massage reduces headaches, migraine and jaw tension while

significantly improving sleep quality. Our longer, 75-minute treatment will also take care of tension build-up in your chest, neck and scalp.

BODY PURE MASSAGE

60/90 minutes

Our body massages are tailor-made to your personal needs. Deep-tissue massage addresses muscular tensions, aches and pains, or gentler methods can help you relax and reconnect. You can choose from a 60-minute treatment that slowly builds the ability of your body to relax and release tensions that are often built up over years. Or go for our ultimate 90-minute top-to-toe treatment that also includes work on the abdomen, chest, face and scalp.

MUM-TO-BE PURE MASSAGE

75 minutes

We offer pre- and post-natal massage to support you and your body during or after your pregnancy. Beata developed this massage acknowledging the different stages of your pregnancy as each of them requires different attention, techniques and positions to make sure that you are safe and comfortable. We adjust the pressure to your needs and thoroughly discuss any contraindications and specific requests prior to your treatment. We offer Mum-to-Be Pure Massage after the first trimester of your pregnancy.

BODY BALANCE PURE MASSAGE

60/90 minutes

A gentle yet very effective treatment, helping to activate the body to efficiently detoxify and re-balance itself while bringing a sense of calm and deep relaxation. This treatment combines elements of abdominal/organ massage, lymphatic

drainage and feet reflexology to bring back the balance not only to your digestive system but also to your whole body. It can be a great start to a new lifestyle if combined with a detox diet, plenty of rest and drinking large amounts of water. We recommend two or three treatments close to each other, combined with a Back Pure Massage for maximum benefit.

BODY TONE PURE MASSAGE

60/90 minutes

A specialised, advanced massage designed to assist in cellulite reduction. The treatment starts with relaxing lymphatic drainage techniques to activate lymph flow and more effectively remove any toxins accumulated during the treatment. This follows with a deep and energetic massage using firm pressure and cupping tools to warm up and loosen the fatty tissue in any problematic areas. In the longer 90-minute treatment, we will also massage your back to make sure any muscular problems are resolved as well.

BODY MOVEMENT PURE MASSAGE

60/90 minutes

Based on Thai stretching and Shiatsu points, this treatment is the result of Beata's extensive efforts to create the best possible fusion of Eastern and Western concepts to deliver a modern, effective treatment during which you will remain fully clothed and no massage oil will be used. The main part of the treatment is a series of intensive stretches, but first all muscles are relaxed through gentle rocking that allows all joints and ligaments to restore their alignment and balance. This is followed by muscle work to deliver a full experience of being stretched and relaxed to leave you refreshed and full of energy. Loose clothing is provided for this treatment to ensure your comfort.

UNDERWATER DREAM

60/90 minutes

Our first-in-the-world underwater spa is a perfectly cocooned and dreamlike space - the perfect setting for a delightful treatment that harnesses the wonderful healing powers of sleep.

Sleep is essential for good health, helping the body to balance its different systems. A good night's rest has the power to recharge the body completely, bringing back physical strength, hormonal balance and a much more positive outlook. Beata Aleksandrowicz designed this treatment exclusively for Huvafen Fushi, combining the stillness and tranquillity of this special location with her years of sleep research and unique massage techniques.

Starting at the feet, this treatment uses a combination of reflexology, pressure point and shiatsu techniques to promote relaxation and a restful sleep. Soothing massage on the head, neck, arms and legs promotes trance-like deep relaxation, while ancient breathing techniques help to complete the energy circuit in the body and promote sleep. Unique and transformative, this treatment elevates the power of touch to another level, restoring a natural sleeping pattern and releasing hormones that boost happiness.

DHIMAALIS 90 minutes

A secret formula. An ancient tradition. The name for this treatment originates from traditional Maldivian medicine that has been brought to Huvafen by our dedicated Spa Manager Aishath. She was fortunate to meet a Maldivian healer who passed to her the secret formula for massage oil that has been used in local traditions for generations.

Dhimaalis is about health and sensuality. The treatment starts with a gentle body exfoliation, using sand and Maldivian herbs. You will then be washed in the sea, allowing the salt water to penetrate your skin and nurture your senses. Massage will follow, unblocking your energy and increasing circulation using the best Maldivian techniques, brought together by Aishath in a unique and authentic way.

The final touches have been curated by Beata Aleksandrowicz to give this treatment its exclusive hallmark. We even built a special four-poster beach sala near the sea for this treatment to ensure a relaxing and private experience.
