Revel in ethereal moments in a beachfront oasis where tranquil elegance is prescribed.

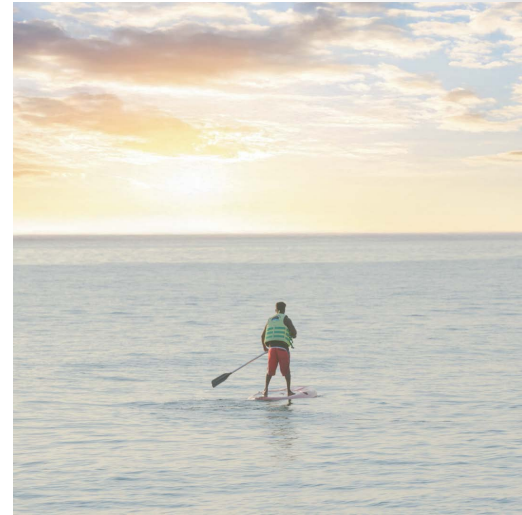

Destination

The tranquil terrain of Al Aqah lies beneath the Hajar Mountains, the highest range in the Arabian peninsula. Where the steep rocky slopes run down to the azure waters of the Indian Ocean, biodiversity thrives both above and beneath the water. This marine sanctuary covers almost a kilometre, safeguarding an underwater ballet of fish, jellyfish, eels, turtles, sharks, and coral. Ocean enthusiasts can enjoy the thrill of discovery through snorkelling and diving, with guided tours available.

Bike or hike through the lunar-like landscape of the mountains, sculpted across millions of years. Explore the rich cultural heritage of the surrounding emirate with sites such as Fujairah Fort and Fujairah Heritage Village, where tradition and history breathe amid the beauty of the eastern coast.
