

ENCHANTED *Gardens*

Festive Season at Noku Maldives, Vignette Collection
2027/2026

COME FIND THE GREEN

heart of the island

This festive season, Noku Maldives, Vignette Collection takes its cue from the island itself. Kuda Funafaru is green at heart, and Enchanted Gardens brings that green into everything we do: lantern light through the trees, candles, moss and native flowers in every corner. From the tree lighting to New Year's Eve, the celebration grows outward from the garden.

Dear Guests,

Thank you for choosing to spend the festive season with us at Noku Maldives, Vignette Collection.

This is my favourite time of year on Kuda Funafaru. The island feels fuller and a little louder in the best way, with families finding their spot on the beach and evenings that seem to stretch on longer than they should. Our team has been looking forward to it for months.

However you choose to spend these days, whether that is somewhere in the middle of everything or quietly at the comfort of our Spa, I hope you find what you came here for. Good food, easy company, and enough time to properly slow down.

We are glad you are here, and we hope you will come back.

With warm wishes,

Hussain Shahid
