JOALI BEING PRESENTS 'TIDES OF TRADITION' FESTIVE SEASON 2026/27

A traditional festive season, where island rhythms flow through moments of connection and celebration.

(From left: festive culinary creations, Santa's arrival, joyful holiday traditions, live entertainment and oceanfront celebrations at JOALI BEING)

Bodufushi Island, Maldives, 4 September 2026

This festive season, JOALI BEING invites guests to embrace the warmth of togetherness with **Tides of Tradition**, a joyful celebration inspired by the rhythm of the ocean and the timeless traditions that bring people together. From **22 December 2026 to 8 January 2027**, the well-living island will reimagine the festive season through the **Joy of Well-Living**, bringing together cherished celebrations, transformative wellbeing, exceptional dining, island adventures and meaningful experiences for families.

From moments of stillness to joyful celebration, Tides of Tradition unfolds through experiences that inspire connection — with oneself, loved ones and nature — bringing together festive traditions, transformative wellbeing, culinary journeys and island celebrations. Festive highlights include:

• **Island of Light: Festive Tree Illumination –** The season begins as JOALI BEING's festive tree comes to life beneath swaying palms, marking a radiant moment of togetherness and the start of the island's celebrations.

• **Feast of Christmas Wonders: Christmas Eve Dinner** – Loved ones gather for an elegant Christmas Eve dinner, bringing together festive favourites, JOALI BEING signatures and thoughtfully sourced ingredients in the spirit of sharing and togetherness.

• **Island Splash Pool Party** – Celebrate island style at MOJO Pool with live music, refreshing cocktails, festive bites and playful poolside experiences, all set against a vibrant island atmosphere.

• **Season's Bells: Santa's Arrival** – Santa brings a touch of festive magic to the island with a special arrival and surprises for younger guests and families.

• **A World of Magic: New Year's Celebrations** – The island welcomes 2027 with an evening of glamour, culinary artistry and live entertainment, beginning with sunset cocktails before a celebratory gala dinner, midnight countdown, fireworks and dancing beneath the stars.

As part of the festive season, JOALI BEING will welcome Visiting Practitioners offering experiences designed to support balance, vitality and renewal:

• **Breath of Life with Javier de Prado –** Combining breathwork, Craniosacral Therapy, Visceral Manipulation and OsteoTha with mindful movement and meditation, Javier de Prado's integrative sessions support nervous-system regulation, inner balance and deeper presence.

• **Holistic Longevity & Facial Rejuvenation with Dr Igor Roganin –** Blending Traditional Chinese Medicine with advanced diagnostics, Dr Igor Roganin offers personalised therapies to support vitality, graceful ageing, long-term wellbeing and facial rejuvenation.

Throughout the season, the Joy of Well-Living unfolds through movement, mindfulness and transformative wellbeing, from meditation and hydrotherapy rituals to energising sessions and expert-led experiences. As evening falls, the rhythm shifts to music and movement with signature experiences including the Island Splash Pool Party, DJ Fit Night and Rhythm at the Gate at the iconic Gate of Zero.

Culinary experiences bring guests together through flavour, craftsmanship and connection, from intimate chef-led journeys and the five-course Chef's Table Collection to Spirit of the Orient, Italian Essence and Japanese specialities at Yutori. Toes-in-the-sand seafood dinners at MOJO and hands-on pasta, sushi and artisan pizza masterclasses add to the season's culinary celebrations.

The ocean and surrounding nature become part of the journey, with dolphin cruises, guided snorkelling, sunset fishing, coral planting, scuba diving and water sports offering opportunities for discovery, adventure and a deeper connection with the natural world.

At B'Kidult, younger guests and families can share experiences designed around curiosity, wellbeing and connection, from Christmas crafts, nature treasure hunts and culinary workshops to teen fitness, virtual reality and marine adventures. Families can also discover the island's conservation work through coral planting, visits to the Sea Turtle Care Centre and experiences with the Marine Biology team.

About JOALI BEING

JOALI BEING is a well-living island where guests come to feel lighter, happier, and more energised. A place of joyful transformation brought to life through architecture, mindful cuisine, and immersive luxury. Rooted in the Four Pillars of Mind, Skin, Microbiome, and Energy, the island blends modern science with time-honoured traditions to inspire purposeful living, balance, and renewal. Home to 68 beachfront and overwater villas shaped by biophilic principles, the island flows in harmony with the ocean and surrounding nature. Transformation unfolds in uplifting spaces such as the KAASHI Hydrotherapy Hall with Watsu, Aufguss sauna, salt inhalation, and a Turkish Hammam. CORE, the island's fitness and movement zone, offers innovative facilities, dynamic training, and energy-filled programmes, while recreational sports, marine adventures, and sound healing experiences create vibrant pathways of movement and discovery. Mindful cuisine nourishes and inspires, while B'Kidult welcomes families with meaningful activities that encourage connection and shared well-living. Every stay at JOALI BEING becomes a personal journey of energy, renewal, and joyful living.
