DISCOVER SYLVAN KOH CHANG

Destination **Koh Chang - Thailand's Eco Island**

The largest among the 52 islands of Trat province, Koh Chang is also the kingdom's second largest island, covering an area of 429 sq. kilometres. As an island resort destination, Koh Chang is a feast for the senses, with abundant natural beauty, including majestic hilltops, jungle forests, pristine waterfalls and meandering streams.

Koh Chang is a large government protected eco-island. Over 80% of Koh Chang is designated as a part of Thailand's protected national park system. Koh Chang's rainforest habitat is filled with thousands of species of flora and fauna, and its underwater marine environment is home to a thriving coral reefs and diversity of sea life.

Becoming more popular as an island resort destination among couples, families and adventurous backpackers, Koh Chang has kept its small towns, community feeling, unlike other beachfront tourist areas and island destinations in Thailand.

Traditional Thai hospitality and local friendliness remains intact on Koh Chang, where many residents continue pursuing the same lifestyles they have had for centuries, fishing the waters of the Gulf of Thailand in small boats, cultivating rubber, pineapples, mangoes, and other crops. Meanwhile, Koh Chang's scenic beaches retain their unspoiled charm, often shaded by rows of pines and coconut trees.
